APPLICATION TO THE FOXG1 FOUNDATION FOR FUNDING INSTRUCTIONS
APPLICATION PROCEDURES:

Thank you for approaching the FOXG1 Foundation as a funding resource. The International FOXG1 Foundation is a 501(c)(3) nonprofit corporation that aims to support families and researchers alike. Through our granting agency, we hope to establish a network of researchers who work synergistically to better understand the biology of FOXG1, with the ultimate goal of identifying innovative therapeutic strategies. We greatly appreciate your work, and the effort undertaken to complete this application. Your proposal will be adjudicated by our Scientific Advisory Board (SAB), with input from our Board of Directors. We accept proposals on an ongoing basis. Please anticipate a response within 30 days.

**Cover Page:** Please complete the cover page; note, all funds are in USD.

Project Summary: Please provide a detailed overview of the proposed research, including any preliminary supporting evidence (figures and legends should be included in a separate file). Be sure to note: (i) the long-term goals of this work and its significance, (ii) the central hypothesis, (iii) specific aims, and (iv) the rationale. Any anticipated outcomes and measures should also be described in sufficient detail for the SAB to assess feasibility and relevance. (Maximum 2 pages, Arial font, size 11, single-spaced)

**Project Narrative:** Please include a 250-word summary of your project that is accessible to a wide audience, including those without formal scientific/clinical training. Please note, if approved for funding, this narrative may be distributed to our members and the community through advocacy and fundraising efforts.

Biosketch: Please include a current NIH biosketch (or similar) of the principal investigator and key personnel.

**GRANTING PROCEDURES:**

If your proposal is accepted, we require proof of IRB approval from your (and any involved) institution prior to awarding funding.

**Grant Term:** Unless otherwise specified, grants administered through the FOXG1 Foundation are for a period of 1 year; we encourage applications/proposals that would require an extension of funding.

**Reporting:** After funding is awarded, we will request written progress reports at 6 month intervals. The written report will be (maximum) three-pages in length, and should include a 300-word abstract, progress (including figures and legends), reference to any manuscripts prepared or submitted for publication, and ongoing/planned experiments. A separate brief narrative should also be included that can be understood by a non-scientific audience.

**Primary Contact:** Please do not hesitate to contact our Director of Research, Adam Haar, with any questions or concerns. Email: adam.haar@foxg1.org.
